Publisher: Ellora's Cave  
Genre: Contemporary  
Publication date: May 2007  
ISBN: 978-1-4199-1091-3  
Pages: 100

Heat Level: Masturbation Rating: Ellis, known by other designers as "the room whisperer," is a bit eccentric. She's confident in her ability though, so when she gets the chance to participate in the Oak Ridges Development Competition, she's determined to win. Simon Callon was thrilled when his construction company won the contract for the Oak Ridges Development. If he'd known how difficult the designers of the show-house competition would be, he'd have sold Callon & Son and opened a donut shop. Ellis Strathmore has his foreman Marco going in circles and so he's forced to intervene in order to save Marco's sanity. Destiny by Design is a delicious read that you don't want to miss. Simon is the perfect mix of hot construction worker, intelligent businessman and talented lover. His sense of humor is fantastic and his commitment to doing what's right is admirable. Ellis is a bit quirky but oddly I could relate to everything that she said. She's a delightful combination of unique and sassy and her inhibitions with Simon makes for some hot, hot scenes! With a dash of humor, a bit of intrigue and a whole lot of chemistry, Destiny by Design is juuuust right! I look forward to reading more by the talented and entertaining Wylie Kinson!
