Publisher: Samhain Publishing
Genre: Contemporary
Publication date: August 2006
ISBN: 1-59998-162-9
Pages: 203
Series:
Heat Level:, Light Bondage Rating:

Noah Reeves has been the lead character for the majority, all right, ALL of Lauren's sexual fantasies, but at thirty-six, she's no competition for the endless string of twenty-something Barbie dolls that he always seems to be dating. Add to the mix that he's also best friends with her ex-husband as well as her boss, he's definitely off limits. When she starts receiving notes and gifts from a secret admirer, she decides to take a risk with her body and fulfill some of her fantasies but she's not willing to risk her heart.

Noah has waited ten years for Lauren Southall and after giving her time to recover after her divorce, he's through waiting. He wants to be everything to her, give her everything of himself, everything that he's had to hold back since he first met her. After two years of planning, he decides it's time to put his plan into action…

Not only did Noah fuel Lauren's fantasies but also he'll be fueling mine as well for a long time to come! Yum! Naughty Little Secret is not only erotic, but also sexy and sensual. Shelley Bradley knows exactly what her readers want and she skillfully provides it. The intensity of the sexual attraction between these two characters is unrelenting and you'll undoubtedly be swept away on the tide of their desire. The scene in which Noah is "revealed" is quite possibly one of the most erotic, emotion-filled scenes ever written. Get a bucket of ice ready for this one. And some new batteries. You might to even want to buy some stock in a battery company once everyone finds out about Naughty Little Secret.
