Kevin Riley is the stuff most women dream about. He is sexy, strong, and smart, with a butt that poems could be written about. One look at the model Serena Macafee has to take pictures of has her drooling over the handsome hunk. She wants a quick roll in the hay with him. Something with no strings attached and has lots of steamy sexual sensation involved. When a quick roll in the hay turns out to be more, both Kevin and Serena learn some things about each other and the power of love.

Serena is a strong independent woman, she has been hurt in the past but she has learned to guard her heart. Kevin, too, has been hurt in the past. He knows falling for another woman in the art community is a risk, and he tries to fight, it but Serena turns out to be more alluring than Kevin can resist. Tracy Wolff brings two injured souls together in Full Exposure. Perhaps together they can heal. I loved the idea of true love teamed with hot steamy sex, and the back drop of photography. The emotional pull in this story kept me glued to the pages and wanting more. If you really want a story that gives you hot sex and the emotional pull to keep you reading, Full Exposure is the story for you. Ms Wolff's novels should be on everyone's keeper shelf.
