Werewolves, witches, FBI panther shifters, and vampires await you in the pages of *Belong to the Night*. First Shelly Laurenston introduces you to the Smithville werewolf pack in *The Wolf*, *The Witch*, and *Her Lack of Wardrobe*. Jamie is a witch in search of power. She wants to protect her coven and power is the way, however, the journey to power is killing her. Tully is the local alpha and sheriff in Smithville. He is trying to protect Jamie from herself, but she is not making the job any easier and falling in love is complicating the matters more! Then Cynthia Eden will charm you with *In the Dark* where you meet an FBI werepanther named Sadie and her long lost dead lover Liam. Now that Liam is back from the dead, things are really heating up! Especially when Liam's secret involves getting his old lover Sadie back! In Sherrill Quinn's *City of the Dead* you meet Jake and Dori. They are two steamy lovers you have to meet, they are special and in search of a demon. When love and demon hunting combine you get chemistry off the charts!

The three stories of *Belong to the Night* are all very powerful compelling reads. I personally loved Cynthia Eden's *In the Dark* the best. I have a thing for loveable vampires and Liam really fits the bill. Though he does get his bum kicked, Sadie is one tough little panther! Don't mess with her! When you want action adventure, love lost and love found you want *Belong to the Night*. This novel will make you want more of the creatures that go bump in the night and the mates that love them.
